

DRIVE TEK DRIVER EDUCATION

20 HOUR DRIVING LOG

Iowa Law requires that each teen driver must log 20 hours of supervised driving before they are eligible to receive their intermediate license or school permit. A minimum of two hours must be between sunset and sunrise and the driver must be accident-free and conviction-free for six consecutive months to be eligible for an intermediate license. We recommend that each student drive at least two to three hours for each hour they spend with their driver education teacher. Please record the information listed below and have your parent initial after session. Bring this form to driving class each day.

Session	Date	Minutes Driven	Skills Practiced	Total Mileage	Night Driving	Inclement Weather	Parent/Guardian Initials
